U. S. EXPORTS OF BEEF BREEDING

CATTLE JANUARY-JUNE 1958 1/

The United States exported 6,039 head of beef breeding cattle to 26 countries during January-June 1958. This compares with 5,806 head in July-December 1957 and 25,059 in January-June 1957.

Herefords, Aberdeen Angus, and Brahmans accounted for about 75 percent of the January-June 1958 exports. Of the total number exported, 54 percent were bulls. Texas was the leading exporting state, with 2,988 head. Florida exported 736 head; Arizona, 636; Montana 217; and California, 209.

Mexico continued to be the leading market, purchasing 3,083 head--nearly one-half of the U. S. beef breeding cattle exported during the period under review. Canada took 984 head and was the second largest market, followed by Cuba, Venezuela, and the Dominican Republic.

1/ This is the third of a series of reports published at 6-month intervals on exports of beef breeding cattle.

See Foreign Agricultural Circular FIM 1-58 for annual beef cattle export information in 1957.
